DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: the delay unit (7) and second equalizer (4) including the filter FFF and summing node are apparently required of every claim.

2. Claims 6-9 and 20-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 6, the "delay unit for synchronizing data" (apparently required in every claim, as noted above) apparently should be a "delay unit for staging data...."

Regarding claim 20, the "delay unit ... synchronizing data" (apparently required in every claim, as noted above) apparently should be a "delay unit ... staging data...."

Allowable Subject Matter

3. Claims 1-24 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
